

# FutureMD CirrusAI Notes

## Clinical Documentation Reimagined

### AI That Listens, Learns, and Documents

FutureMD CirrusAI Notes captures real-time patient conversations and transforms them into complete, structured clinical notes, right inside your EHR.

### Why Providers Trust FutureMD CirrusAI Notes

- Save 70%\* of Your Documentation Time**  
AI-generated notes cut charting from hours to minutes.
- See 4-8 More Patients a Day**  
Expand capacity without increasing hours.
- Charting Done in 3-8 Minutes**  
Accurate, clean documentation with minimal edits.

## FutureMD CareCloud | Transforming Healthcare with AI

\*Based on national averages and internal performance data, actual results may vary. CareCloud makes no guarantee, warranty, or representation regarding specific outcomes for your practice. Results depend on a variety of factors, including, but not limited to, practice size, specialty, and geographic location.

FutureMDs AI has completely transformed how I manage patient encounters. It records the visit, organizes my notes automatically, and even suggests codes—saving me hours each day. I'm more present with my patients now, and documentation is effortless and professional.

— Donna Kelly, Owner, Laughlin Community Health Center

## Built to Enhance How You Work:

### Smart-Clinical Suggestions

Get context-aware recommendations for diagnoses, treatment, and coding.

### Medical History Context Built-In

Summarizes past records for more informed decisions.

### Enterprise-Grade Security

HIPAA-compliant architecture ensures full data protection.

### Structured Data Output

Generates notes that align with clinical and billing standards.

### Fast, Secure EHR Integration

Works within your current systems with no disruption.

### Multilingual Capabilities

Enables more inclusive care across patient populations.

### Conversational AI That Understands You

Captures every nuance of patient conversations naturally.

## Try Risk-Free for 30 Days

Experience the full power of FutureMD CirrusAI Notes with no commitment. After your trial, continue for just **\$199 per provider per month.**
