

Healthcare never pauses. Neither should your front desk.

Meet stratusAI Desk Agent, the assistant that keeps patients scheduled, verified, and reminded.

01

Sounds Human

Empathy, tone detection, and bilingual support.

02

Fully Agentic

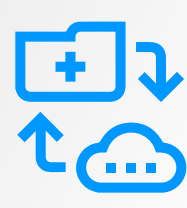

Not a bot. stratusAI books, reschedules, cancels, verifies, and reminds without staff.

03

Deep EHR Sync

Real-time scheduling, insurance checks, and copays directly in your system.

04

Always On

24/7/365. No holidays, no office hours, no hold times.

"Hi, I'm stratus! How can I help you today?"

Instant Call Answering

Based on internal pilots and industry benchmarks; actual results vary by practice size, specialty, geography.

Visual Journey

01: Answers

Greets instantly, detects language, pulls patient record.

02: Verify & Understand

Confirms identity and reason for calling.

03: Assist

Checks live provider schedule and availability and books appointments, takes Rx refill requests, and when configured, can estimate copays.

04: Confirm & Complete

Patient chooses; the Agent books/reschedules/cancel, launches intake/consent, verifies insurance, sets reminders, queues callbacks/lab updates, and logs a clean summary. Staff can jump in anytime.

05: Sync

Closes the loop and keeps your EHR in sync.

"FutureMD CareCloud's stratusAI Desk Agent has meaningfully streamlined our operations. Today, stratusAI is effectively managing nearly 80% of our inbound calls, allowing our staff to focus on more complex patient needs while maintaining a higher standard of service."

Dr. Edsel Holden II, MD, The Lungs Center

Why stratusAI Works

Decrease No-Shows:

See a stronger revenue flow with smart patient reminders.

Burnout Relief:

Offloads repetitive calls so staff can focus on care.

Patient-Friendly:

Multilingual, empathetic, natural - increases trust.

Practice Growth:

Scale instantly during peak hours without staffing up.
